 <p>Mr. Mihir Mehta, Director and Co-founder, Green Pyramid Biotech. Pvt. Ltd.</p>	<p>Green Pyramid Biotech. Pvt. Ltd. is developing chemical free formulations for end consumers, that cleans Fruits and Vegetables 95% better than tap water, within a minute. GP Biotech is a start-up initiated from the research centre of National Chemical Laboratory, Pune under the guidance of Dr. Asmita Prabhune. We are committed towards developing various bio-pharmaceutical drug formulation and commercial products for consumers as well as industries in the field of Agriculture, Food, Pharmaceuticals, Nutraceuticals, Cosmetics, Theranostics and General Well-Being.</p> <p>Fruits and Vegetables are an integral part of our diet, a majority of which are unfortunately impregnated with toxic levels of chemicals and pesticides giving rise to lethal diseases and cancer. Various reports claim that simply washing them in plane water does not remove these</p>	<p>Get to know Indian Clean Tech and Agritech along with Medtech, healthcare companies & scenery</p> <p>Know possible partners in the Marketing, Distribution & Life Science ecosystem of India.</p> <p>Learn about the Indian and International Food and Vegetable Processing Market.</p>	<ul style="list-style-type: none">• Vegetable and Food Processing Industries,• Organic and Inorganic Food Exporters• Farmers• End Customers

toxins and pathogens.

To address this problem, GP Biotech is focused on development of biosurfactant based formulations, which will successfully aid all household consumers and children to sanitize their fruits and vegetables before they consume them. This unique formulation is concerned with the problem of heavy use of chemicals, pesticides and pathogenic micro-organisms present on the surface of fruits and vegetables.
