

Tell us about yourself.

I am a 43 year old lifesciences enthusiast. I have a Masters in Biochemistry from the University of Houston and have worked in the biology and drug discovery space for over ten years. I am from Chennai and a big bibliophile & musicophile.

What is your role at swissnex?

I am the Healthtech Project Manager. I look forward to gaining new insights and putting my knowledge to work. I love to learn about new frontiers breached in the healthtech/biology space.

What are your takeaways from this job?

Expanding my horizons. Feel the pulse of the industry and scoping out the next big tech disruptor.

One thing you learnt about Switzerland after joining swissnex

They are a really big presence in the Indian industry. And of course, chocolates.

Aparna Kumaraswamy
Project Manager, Healthtech
